\*What will be the fate of the federal Affordable Care Act and funding for Medicaid under the Trump administration and the 2017 Congress? Has any definitive action occurred as of June? If not, what can we expect to possibly see?

\*And in Michigan, where do matters stand on Governor Snyder's 2016 proposal to transfer Medicaid mental health beneficiaries and funding from CMH programs to Medicaid HMOs? Are the FY-18 state budgets done? What do they say about next steps on this issue for Michigan?

\*What can we as concerned citizens do about the above matters?
